

Lactation Network Book Display

The Cambridge Lactation Network held their annual Summer Symposium on Friday, 12 June at the Department of Pharmacology, Seminar Room. A full-day symposium providing an opportunity to integrate insights of varied aspects of lactation research in Cambridge and within the UK, the event also hosted a modern and Rare Books display with material from across Cambridge University Libraries and Archives (CULA) alongside representations in the case of the archival material. This list, therefore, is a digital 'Reading list' copy of those which were brought in person, to give a chance for attendees both in person and online to read them at your leisure, and includes eBook versions of those which are available digitally.

23 items in 2 sections
